Niki Dionne of Actual Footage of Me is an Illustrator and Fiber Artist based in Dallas TX. Through various mediums including fiber, oil pastels, and digital illustration, Niki explores how self-perceived identity shapes how black women view themselves. As an artist who has struggled with her identity, every piece she creates has a part of her and the work invites viewers to find bits of themselves in the faceless women.

Niki is a True/False Artist-in-Residence which is supported by a grant from the Mid-America Arts Alliance
